

COVID-19: Health Screening

Revised as of 8-24-2020

Do you have, or have you had in the last 14 days, any of the following symptoms:

Fever (100.4 or higher)	Y	N
Cough	Y	N
Congestion or Runny Nose	Y	N
Chills	Y	N
Muscle or Body Aches	Y	N
Fatigue or Malaise	Y	N
Shortness of Breath/Difficulty Breathing	Y	N
Sore Throat	Y	N
Headache	Y	N
Diarrhea, Nausea, Vomiting	Y	N
New Onset of loss of taste or smell	Y	N

1. Take temperature daily. Any fever 100.4 or above, stay home.
2. If you answer yes to any of the questions above, student should not come to school. If a parent or guardian is in doubt, we encourage them to discuss symptoms with their primary medical provider.
3. A student/staff should not be kept home for **usual** symptoms they experience due to a chronic condition (i.e. allergies, asthma, migraines) unless they are worse than usual.
4. If minor symptoms of sore throat, runny nose and congestion, muscle pain, headache, fatigue, nausea, vomiting, or diarrhea resolve in 24-48 hours, then student/staff can come back to school.
5. If you cannot reach your medical provider, you may reach out to our nurse, Tammie Chasteen, at nurse@maclarenschool.org
6. If student needs to stay home due to this health screening, please email macattendance@maclarenschool.org. Leave a description of symptoms so that our nurse can track school-wide symptoms and report to El Paso County Health as necessary. Confidentiality is always maintained in reporting as much as possible.
7. If student needs to stay home but feels well, student should engage in online learning and follow attendance protocols for online learning for that day. If in doubt of what assignments to do, student or parent should contact the teacher/s directly.
8. If student is home sick, normal absence protocols apply. Only students who are quarantining or excluded *but feel well* should switch to distance learning for the day, in consultation with the teacher. Students who are out sick do not engage in distance learning.
9. If the family is unable to do a home health screening, the student should undergo a health screening at a station by staff.

Illness guidelines are regularly under revision; these will be sent to the parents and staff any time revisions are made and will also be posted on the COVID page of the website.
