

COVID-19: Health Screening

Do you have, or have you had in the last 14 days, any of the following symptoms:

Fever* (100.4 or higher)	Y	N
Shortness of Breath*	Y	N
Cough **	Y	N
Congestion**	Y	N
Chills**	Y	N
Muscle Pain**	Y	N
Sore Throat**	Y	N
Headache**	Y	N
Diarrhea, Nausea, Vomiting**	Y	N
Loss of Taste or Smell**	Y	N

* Any one of these symptoms requires exclusion

** Any two of these symptoms requires exclusion

1. Take temperature daily. Any fever 100.4 or above, stay home.
2. Anyone with shortness of breath—not associated with a documented, underlying medical condition such as asthma—stay home.
3. If you have two or more of the other symptoms (cough, chills, muscle pain, sore throat, headache, loss of taste/smell, GI symptoms)—not associated with documented, underlying medical condition—stay home.
4. If you need to contact someone with questions about symptoms, please contact our nurse, Tammie Chasteen, at nurse@maclarenschool.org.
5. If student needs to stay home due to this health screening, please email macattendance@maclarenschool.org. Leave a description of symptoms so that our nurse can track school-wide symptoms and report to El Paso County Health as necessary. Confidentiality is always maintained in reporting as much as possible.
6. If student needs to stay home but feels well, student should engage in online learning and follow attendance protocols for online learning for that day.
7. If the family is unable to do a home health screening, the student should undergo a health screen at the station in the main lobby. These students need to enter through the main door of the school no matter what grade they are in to be screened.

Illness guidelines are regularly under revision; these will be sent to parents and staff any time revisions are made and will also be posted on the COVID page of the website.
